# Advanced Information

## Getting Started in Your Own Wood

by Julian Evans and Will Rolls

Owning a small wood or being able to help look after one well has become an increasingly popular subject. *Getting Started in Your Own Wood* has all you need to know about the basics. It is written by experts committed to the care and stewardship of our woodland resources and provides practical advice and guidance for those coming to woodland management for the first time.

*Getting Started in Your Own Wood* is an expanded and updated edition of Julian's hugely successful *Badgers, Beeches and Blisters*, first published in 2006 and reprinted four times. Every chapter has been revised, and two new chapters added by Will Rolls on firewood and tree pests and diseases. This new, much enlarged edition for 2015 is greatly welcomed. Includes:

- Owning or caring for a wood
- First steps
- When you may need permission
- Planting and caring for trees
- Natural regeneration
- Cleaning, pruning, thinning and felling
- Coppicing and pollarding
- Woodland crafts and products
- Firewood and wood to burn
- Enriching the wood for wildlife
- Keeping your wood safe from pests and diseases
- Advice and where to get help

**ABOUT THE AUTHOR:** Julian Evans is a forest scientist who has owned and managed his 30 acre wood for 30 years. He has written and edited some 16 books on forestry including two that tell the story of his own wood, *A Wood of Our Own* and *What Happened to Our Wood*. He is currently president of Britain's Institute of Chartered Foresters. In 1997 he was appointed OBE for services to forestry and the third world. Will Rolls is a chartered forester, an expert on firewood and author of the highly successful *The Log Book*.
