Cultural Emergence

A Toolkit for Transforming Ourselves & the World

by Looby Macnamara

The challenging times we live in show us that there is no going back to 'normal' life, but how do we step forward? Looby Macnamara, international thought leader and teacher, introduces 'Cultural Emergence', a framework and toolkit that enables us to design the world we want to live in. It activates healing and revolutionises our approach to creating life-sustaining and regenerative cultures. Drawing upon the lineages of indigenous wisdom, permaculture design and systems thinking, *Cultural Emergence* is a profoundly effective toolkit for creating a new understanding of culture. It shows us how to:

- Expand our thinking and possibilities
- Better understand where problems come from and, by using radical reflection on the root causes, create successful healing strategies
- Embody the learning and effectively embed the changes in our lives into new ways of interacting and being
- Build our individual and collective resilience in turbulent times and support ourselves to proactively adjust to transitions – whether they are personal life changes or collective challenges such as climate change
- Use the tools to create the conditions for emergence, informing the creation of cultures of care, connection, peace, health, effectiveness and trust.

Cultural Emergence is visionary, practical, wise and simple to use. It is a message of hope with tools for empowerment. Filled with stories of people around the world who have benefited using this approach, it inspires us with possibilities. It is a timely, much-needed book that has the potential to be useful to everyone and enable deep and radical transformation.

ABOUT THE AUTHOR

Looby Macnamara is a respected international teacher, practitioner and author. Her first book, *People & Permaculture*, launched the social permaculture movement globally, expanding the focus of permaculture to People Care as well as Earth care. In 2014, she authored *7 Ways to Think Differently*. Looby runs Applewood Permaculture Centre with her partner, Chris Evans, in Herefordshire, UK.
